

## Report on the Results of Syphilis Tests, no. 4

Author: Iloilo Sanatorium

Date: May 29, 1942

File: Files of the Miscellaneous Documents of the Military Police Dispatched to Iloilo (1942)

Locations: Panay, Iloilo (Philippines)

Keywords: Management and supervision

Annotation Source: Northeast Asian History Foundation

Annotation Link: [http://contents.nahf.or.kr/id/NAHF.iswc.d\\_001\\_0010\\_1460](http://contents.nahf.or.kr/id/NAHF.iswc.d_001_0010_1460)

Annotation:

This document is a report on the results of syphilis tests. The report consists of the following sections: date of report, examinee's name (redacted), age, test result (marked as pass or fail), and name of disease (the type of STDs contracted). This report is dated May 29, 1943, and contains the results of tests done on the women aged between 15 and 27. One woman out of 19 tested positive. The attached summary states that two examinees were on their period.

Details:

This document was included in the Files of the Miscellaneous Documents of the Military Police Dispatched to Iloilo.
